

## ELECTRIC STANDARD EVOLUTION TOILETS

Matromarine has realized a range of toilets where performance, reliability, noise level and design have really reached the highest standards. The running cycle is completely automatic and eliminates wastewater through a high-performance pump that allows drainage of waste up to 4 m. in height and at a distance of 40 m.

New flush pump integrated in the whole kit with 360° orientable discharge port connection 1" and 1" 1/2. Noise level is optimized against the standard electric toilets and reduced up to 30% lower while performance is increased of 50%. A special new duck valve on the discharge port connection prevents any return of black water.

The new dual discharge port connection allow any pipework routing

### FEATURES

All models are equipped with soft closing and spray nozzle intake elbow

3 different bowl models

Flushing and macerating discharge pumps: Separate or combined system

Flexible design suitable for overboard or holding tank discharge

Vitreous porcelain bowl

Can be installed above or below the sea level with proper vented loops

### FEATURES

New dual port discharge pump to ensure pipework can be routed to rear

Extremely silent operation

New high-performance discharge pump

Compact

Comfort
